

Water Wonders

Circle what uses water!

What are other ways we use water?

Protecting water is crucial because it's essential for life – every living thing needs water to survive! We also use water to make a lot of things, like tv's, food and clothes.

Fun fact: Did you know that nearly 71% of Earth's surface is covered by water, but only 1% is fresh and drinkable? Let's keep it clean and safe!
