

GIVE ME A BMP!

WHAT IS A BMP?

Best Management Practices (BMPs) help protect water, reduce flooding, and keep pollution out of rivers

Retention Pond

FILL IN THE BLANKS

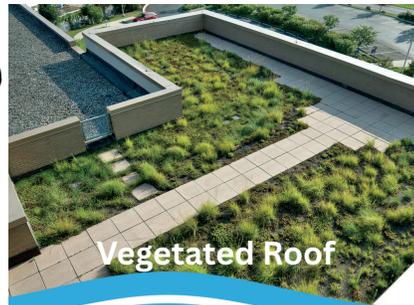

Use the word bank to complete the sentences.

Word Bank: pollution, soak, slow, storm drain

- BMPs help _____ rainwater so it doesn't rush into streets.
- Some BMPs let rain _____ into the ground.
- Storm water can carry _____ like litter, oil, and dirt.
- Water that goes into a _____ flows directly to a stream or river.

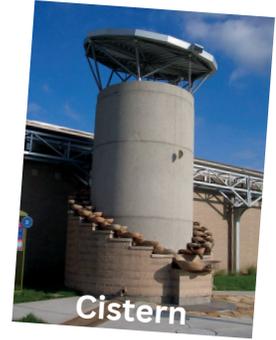

Permeable Pavers

Vegetated Roof

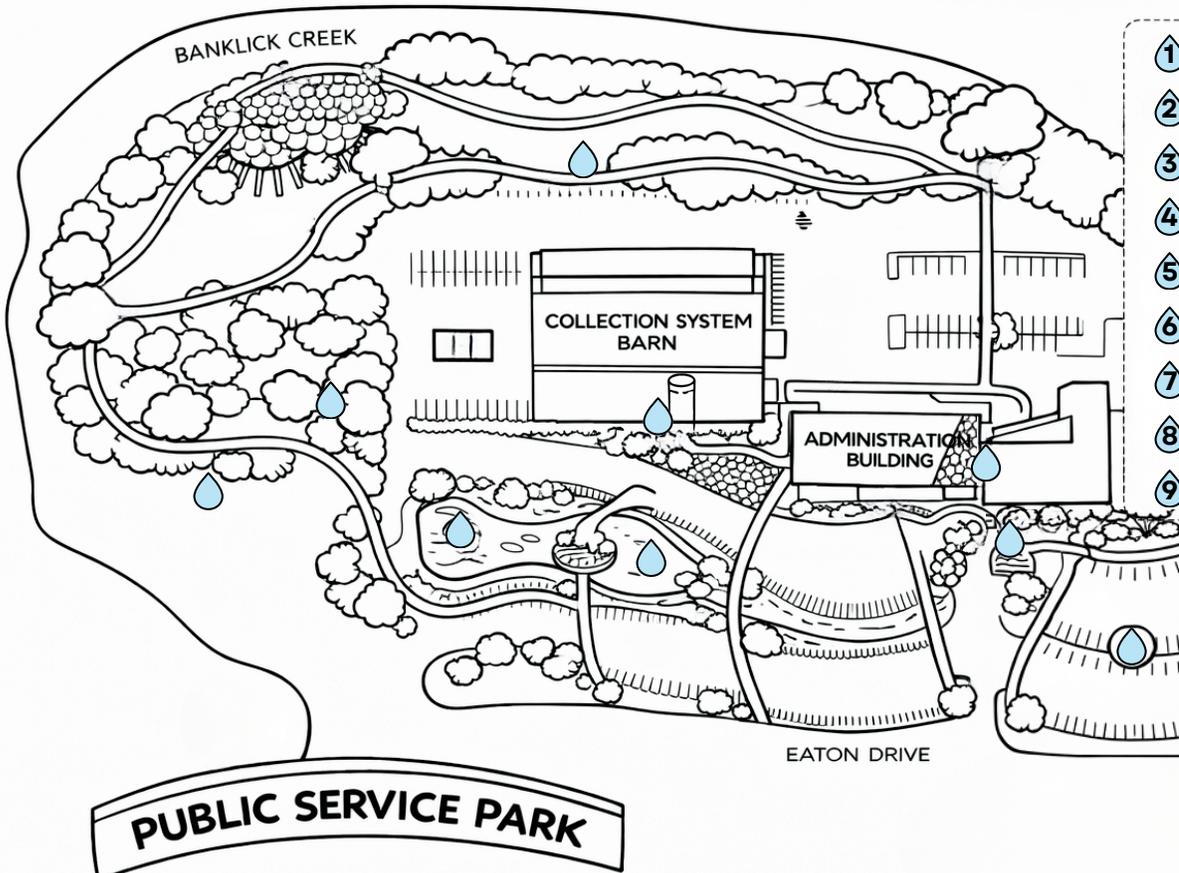

SD1 has a variety of BMPs on site, including a vegetated roof, a cistern, a retention pond, and many more.

Cistern

We offer tours of our Public Service Park featuring our Best Management Practices.
